

Environmental Sustainability & Cultural Heritage Policy

Our Commitment

We will safely deliver secure, affordable and sustainable energy solutions for our customers and communities through reducing our carbon emissions, supporting increased connection of renewables, implementation of our First Nations Reconciliation Action Plan and create energy security for our communities in times of natural disasters. Our commitment is to reduce impacts from our operations on the environment and cultural heritage and continue to grow respectful relationships with all communities we service.

Our Actions

We will implement and support robust systems and processes founded in legislative compliance, set and transparently report on objectives and targets to continually improve environment and cultural heritage outcomes. Our five focus areas will enable our people and communities to collaborate and to grow our capacity as a High Reliability Organisation.

Low Carbon Future

We will actively pursue opportunities to reduce our environmental footprint.

Waste Reduction

We will strengthen life cycle analysis to develop long term positive environmental outcomes, that move us towards a circular economy.

No Oil to Ground

We will continue to improve our hydrocarbon and chemical management with the aim to avoid contamination from our network and at our facilities.

Cultural Heritage

We will work with our communities and customers, including First Nation People and other stakeholders to build trust and achieve mutually beneficial outcomes.

Reduction of Natural Disaster Impacts

Partner with our communities to build resilience and continued investment in natural hazard risk mitigation and response capabilities.

We will implement our E&CH Policy by living our **SKILLED** values **S**afety, **K**nowledge, **I**nnovation, **L**istening, **L**eading, **E**ngaged, **D**iversity.

This policy should be reviewed at least every two years. This policy may only be varied by the Board or appropriately delegated Board sub-committee.
