

Health, Safety and Environment Policy

Our Commitments

Our commitment is to the people and communities who we work with and support every day. We aspire to be an industry leader in health, safety, environment and cultural heritage.

Our Actions

We will enable our people so that we can work together to build capability as a High Reliability Organisation. Our five HSE focus areas will guide us on this journey.

People and Wellbeing

We demonstrate our care for the physical and mental wellbeing of our people. We remove the stigma around mental health.

Safety is defence
It's our game plan

Safety is Defence

We set our defences at the start of the day and focus on both the dynamics and mechanics of how work is done.

Sensitivity to Operations

Our efforts are focussed on supporting our customer facing teams to efficiently deliver their work.

Deference to Expertise

We build trust with our people and know that they are the best informed to make decisions and create improvements in their work.

Continuous Learning

We are relentless in our drive to learn at every opportunity and create improvement in how we operate.

We will implement our HSE Policy by living our **SKILLED** values
Safety, Knowledge, Innovation, Listening, Leading, Engaged, Diversity.
